Why Litex Promo?

Experience and reputation

Our reputation in the industry is the best quality assurance of our services and products. Both small and medium-sized companies as well as global corporations work with us because they trust our experience and skills. We have been on the market for 30 years. During this time, we have managed to gain not only the trust of thousands of customers, but also tremendous experience that allows us to create innovative solutions.
We are not satisfied with mediocrity.

Print quality

We can say, in all confidence, that printing is our specialty. The extensiveness of our technical facilities allows us to offer customers various printing techniques, all tailored to their needs and the specificity of the project they want to implement. We have comprehensive competencies in digital printing, large format flat screen printing, rotary printing as well as manual screen printing. Our many years of experience in this industry assure you that the print on your product will be of the highest quality.

Corporate Social Responsibility

We have taken action to reduce our impact on the natural environment.
Recently, we have introduced innovative recycled yarn to manufacture advertising media, we also actively contribute to environmental protection. We use recycled raw materials, such as rPET yarn, and participate in the circular economy; in this way, we aim to reduce the consumption of non-renewable raw materials and cut emissions associated with our production processes.

Therefore, we are proud to inform that **all parts of our parasols:** aluminum frame, polyester and acrylic canopies, **can be recycled.** The information diagram illustrating the recycling method is attached to the product at the customer's request. In addition to this, the plastic waste generated during the production cycle is processed and reused again.

Recycling poliester fabric

The ‘rPET’ series promotional parasols are made with recycled materials, including 100% recycled yarn in the canopy.

As part of our rPET product range, we are able to provide an environmental declaration certificate, verified by a third-part audit, confirming that the yarn is derived from a recycling process.

Harmony ECOWAY

Size	2 x 2 m

+ Canopy made from recycled fabric (rPET).
+ Modern design and perfect size for small spaces.
+ The frame contains recycled aluminium and is suitable for recycling.

Printing techniques

sublimation printing

flat printing

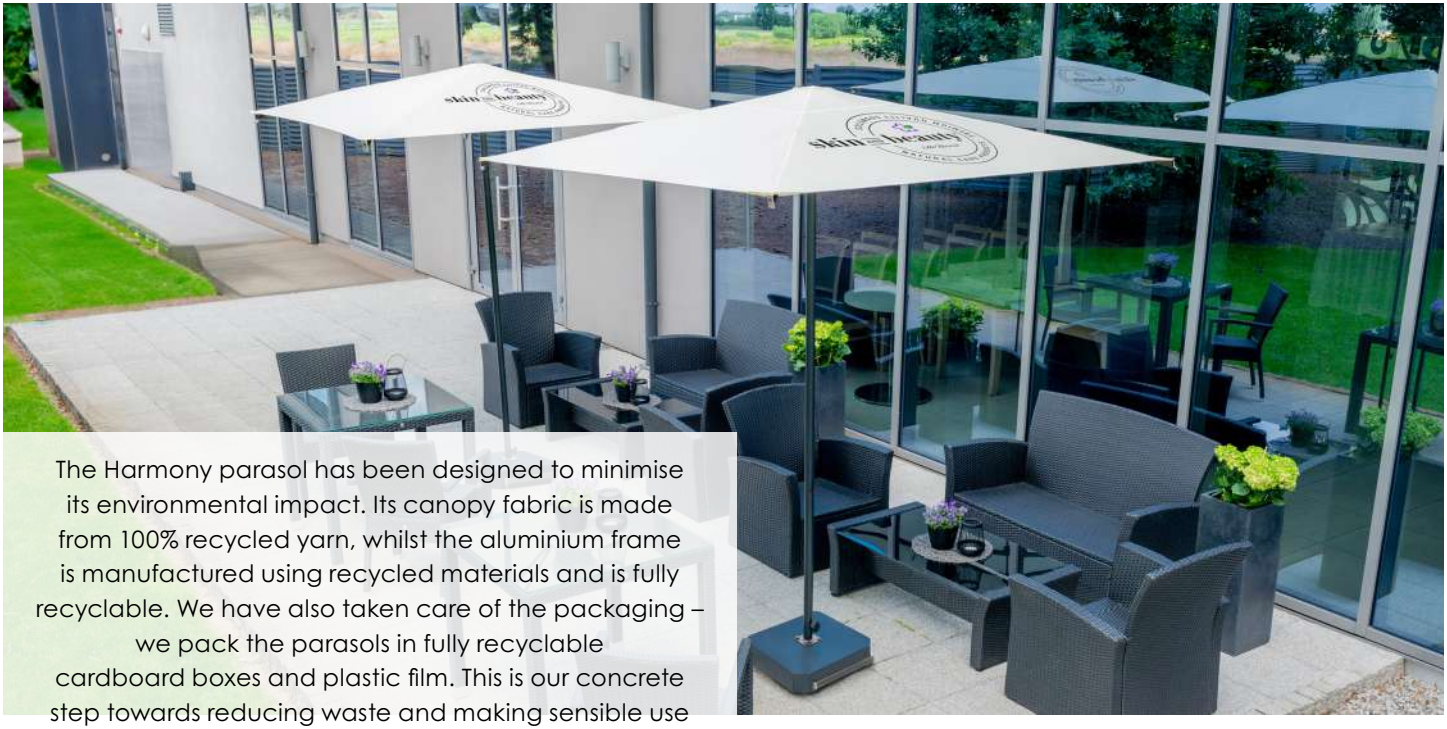
Wind resistance

≤ 28 km/h

≤ 7,9 m/s

Material

woven fabric made of recycled yarn



The Harmony parasol has been designed to minimise its environmental impact. Its canopy fabric is made from 100% recycled yarn, whilst the aluminium frame is manufactured using recycled materials and is fully recyclable. We have also taken care of the packaging – we pack the parasols in fully recyclable cardboard boxes and plastic film. This is our concrete step towards reducing waste and making sensible use of raw materials.

UV printing

Wind resistance

≤ 28 km/h

≤ 7,9 m/s

Material

woven fabric

woven fabric made of recycled yarn

Eco Line parasols are the perfect, cost-effective marketing tool for building brand visibility. The lightweight aluminium frame and a pole that can be divided into two parts not only save space and storage, but also contribute to much more economical transport. The parasol canopy can be fully printed and our technical facilities and many years of experience in this sector give you the assurance that the print will be of the highest quality.

Material

woven fabric

woven fabric made of recycled yarn

Easy Up is a line of parasols with a convenient and intuitive opening system. Just push the handle up and secure the canopy. This simple method and wide range of available sizes make the parasols in this line perfect for gardens, hotel patios as well as beer gardens. The parasol's canopy, offered in a round or square shape, makes it the ideal medium to promote your brand.

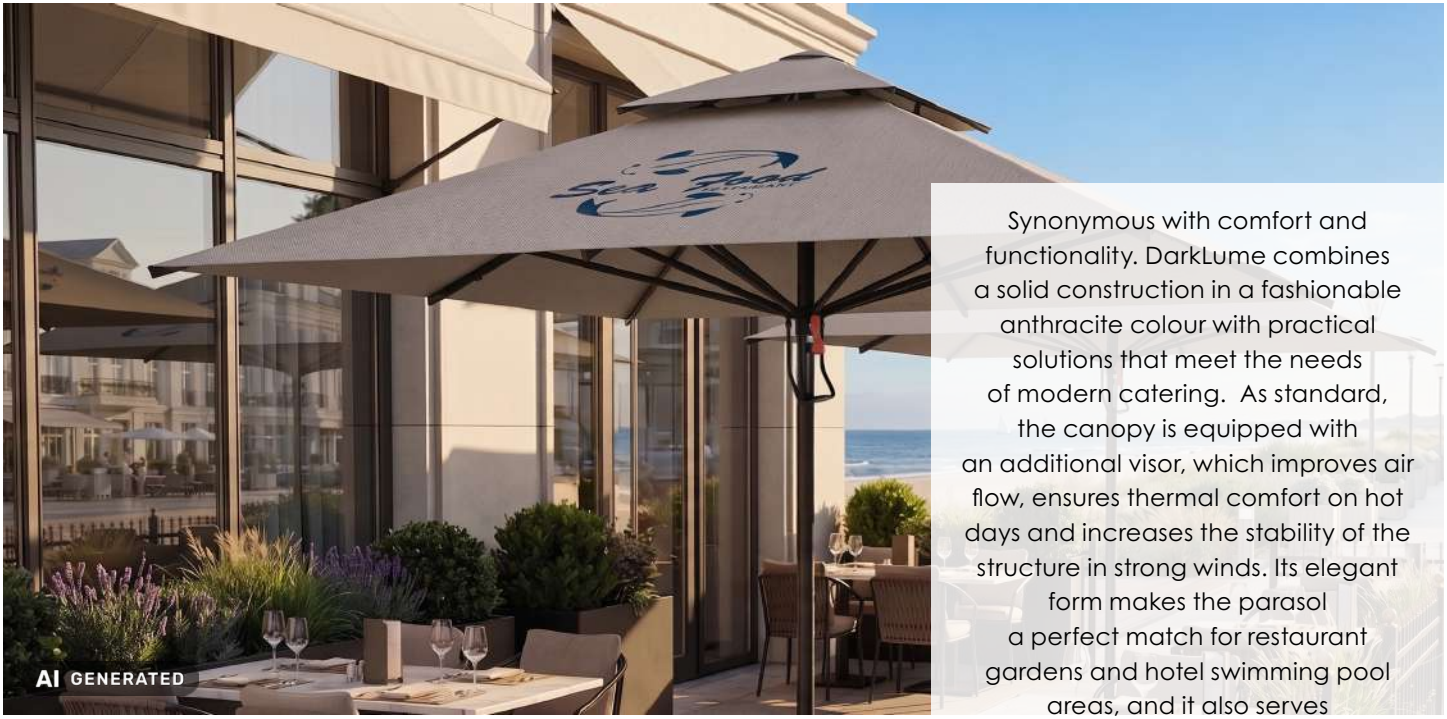
≤ 12,5 m/s

Material

woven fabric

woven fabric made of recycled yarn



Synonymous with comfort and functionality. DarkLume combines a solid construction in a fashionable anthracite colour with practical solutions that meet the needs of modern catering. As standard, the canopy is equipped with an additional visor, which improves air flow, ensures thermal comfort on hot days and increases the stability of the structure in strong winds. Its elegant form makes the parasol a perfect match for restaurant gardens and hotel swimming pool areas, and it also serves as an excellent advertising medium during outdoor events.

Scan the code and learn more

Classic

Size	3 x 3 m	3,5 x 3,5 m	4 x 4 m	4 m / 8

+ Comfortable operation thanks to the classic string mechanism.
+ Classic model of a sunshade parasol for universal use.
+ Pole structure optimized for open-close manual operation by a string.

Printing techniques

sublimation printing

flat printing

manual printing

thermal transfer printing

UV printing

Wind resistance

≤ 38 km/h

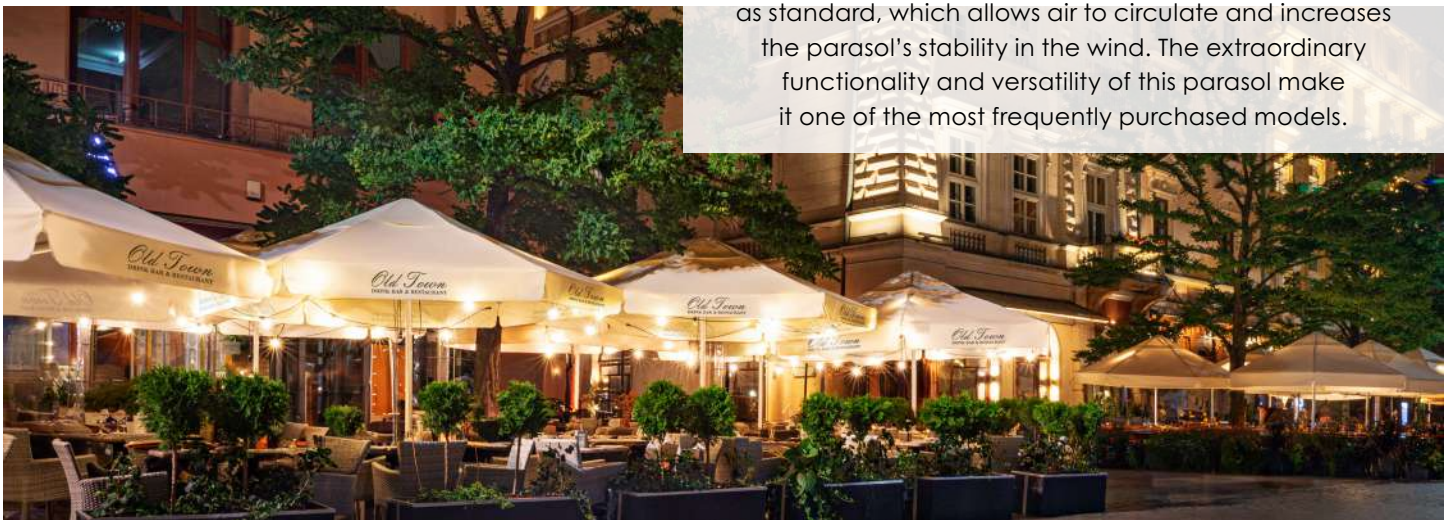
≤ 10,7 m/s

Material

woven fabric

woven fabric made of recycled yarn

Classic elegance. This is an incredibly versatile parasol with a wide range of uses. It has a simple and reliable corded opening system. The canopy is finished with a valve as standard, which allows air to circulate and increases the parasol's stability in the wind. The extraordinary functionality and versatility of this parasol make it one of the most frequently purchased models.



Scan the code and learn more

Telescopic

Size	3 x 3 m	3,5 x 3,5 m	4 x 4 m

+ The telescopic mechanism used, improves the everyday use of the parasol.
+ The structure of the parasol canopy remains strong, even in large sizes.
+ Easy to open and close the canopy with its large surface.

Printing techniques

sublimation printing

flat printing

manual printing

UV printing

Wind resistance

≤ 38 km/h

≤ 10,7 m/s

Material

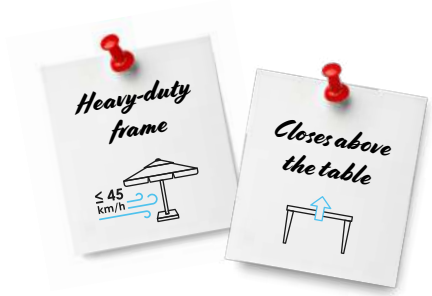
woven fabric

woven fabric made of recycled yarn

Comfort and convenience. Parasols from the Telescopic line are a solution that will work perfectly in restaurant gardens and cafes.
Thanks to the telescopic construction, the parasol canopy automatically rises during closing and freely closes above the level of tables and chairs, saving you the effort of moving them. The parasol canopy is normally finished with a vent that allows the air to pass through the canopy, thus increasing the stability of the parasol in the wind. It's also possible to finish the canopy with a second roof.

Scan the code and learn more

Strong



Size	3 x 3 m	3,5 x 3,5 m	4 x 4 m	5 x 5 m	5,5 m / 8

+ Quick-change canopy system and adjustable tension.
+ The opening mechanism in the form of a handle with a telescopic system improves opening.
+ A parasol with increased resistance to weather conditions, thanks to its durable structure.

≤ 12,5 m/s

Material

woven fabric

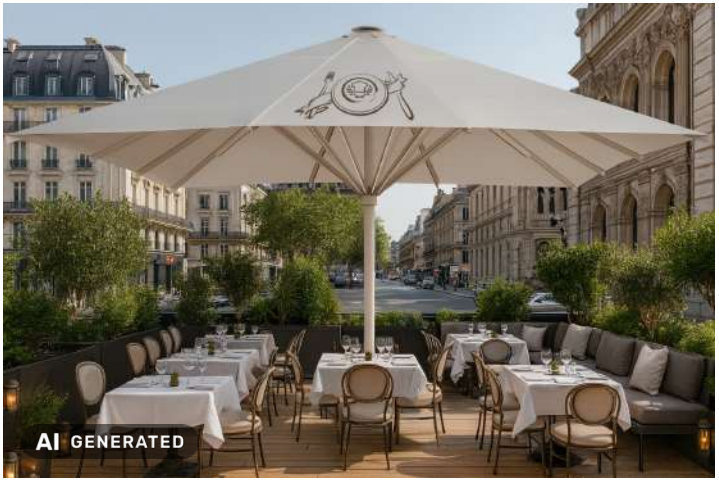
woven fabric made of recycled yarn

The Strong line was created for customers using parasols in particularly demanding weather conditions. This is one of our most durable parasols with reinforced, thicker pole and rib profiles. The parasol is provided with a telescopic opening system that lifts its canopy when closing. As a standard the parasol is finished with a vent that allows free air circulation through the canopy.

Scan the code and learn more

Giant Plus

Size	6 x 6 m	7 x 7 m



+ It is distinguished by its size while maintaining the appropriate stability of the entire structure.
+ Probably the largest sunshade parasol on the market.
+ Possibility of replacing individual panels.

Printing techniques

manual printing

thermal transfer printing

Wind resistance

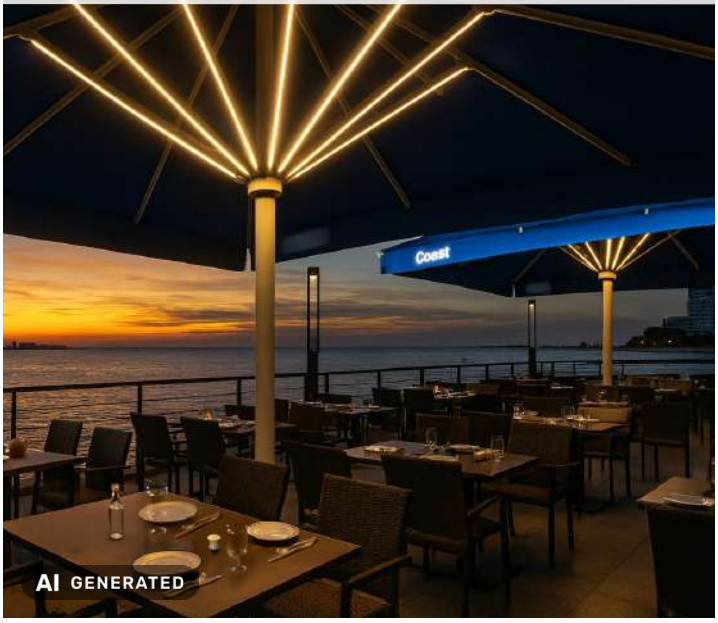
≤ 72 km/h

≤ 20 m/s

Material

woven fabric

Giants among parasols. Giant Plus line parasols guarantee eye-catching look and the possibility of shading a very large area using one parasol. It's an ideal solution for hotels and big restaurants. The reinforced, twelve-rib structure of the frame guarantees safety and stability. The practical telescopic opening system is operated with a crank. The Giant Plus parasol canopy is finished with a vent that ensures optimal air circulation.



Scan the code and learn more

Rectangular

Size	2 x 3 m	3 x 4 m

+ The original, rectangular shape of the parasol, distinguishable by a canopy with a longer side.
+ The used telescopic mechanism contributes to the improvement of its functionality.
+ A canopy with one longer side allows you to combine parasols into one roof.

Printing techniques

sublimation printing

flat printing

Stand out with modernity. Parasols with side leg Rio Plus are the perfect, eye-catching advertising medium for exclusive brands, hotels and restaurants. The lateral position of the leg allows full use of the shaded area under the canopy and does not interfere with visibility nor restrict placement of the furniture under the canopy. Parasols have an adjustable angle of the canopy, so you can better match them to the solar conditions.

AirBlock advertising bottle

Airtight bottle

Height [m]	2	2,5	3	4

+ No need for continuous inflation allows the structure to be set up anywhere.
+ Thanks to the possibility of replacing the outer shell, the bottle can be given a new look without replacing the structure.
+ The constant pressure structure does not generate any noise, allowing participants to fully focus their attention on the brand.

Additional options:
+ internal LED lighting
+ wooden bases
+ sand weights

AirFlow advertising bottle

Fan-inflated bottle

Scan the code and learn more

Height [m]	2	2,5	3	4	5	6

+ Possibility to reproduce any shape and glass elements with a transparency effect.
+ Thanks to its fan design, the bottle unfolds and reaches its final form within a few minutes after connecting the blower.
+ Even in the event of mechanical damage to the covering, the blower continuously maintains the shape of the structure.

Additional options:
+ internal LED lighting
+ wooden bases
+ sand weights

Scan the code and learn more

AirBlock advertising can

Airtight can

Height [m]	2	2,5	3	4

+ The constant pressure design does not emit any sound and ensures comfortable presentation conditions.
+ No need for constant inflation allows for brand exposure in any outdoor setting and environment.
+ The option of equipping the bottle with a wooden base improves stability and resistance to movement.

Additional options:
+ internal LED lighting
+ wooden bases
+ sand weights

AirFlow advertising can

Fan-inflated can

Scan the code and learn more

Height [m]	2	2,5	3	4	5	6

+ With a height of up to 6 m, the brand becomes the focal point of the event, attracting attention and standing out from the background.
+ Optional internal LED lighting allows for effective, round-the-clock brand exposure.
+ Even in the event of mechanical damage to the cladding, the blower continuously maintains the shape of the structure.

Additional options:
+ internal LED lighting
+ wooden bases
+ sand weights

AirBlock advertising totem

Airtight totem

Height [m]	2	2,5	3	4	5	6

+ No need for a continuous power supply allows for brand presentations in locations with difficult access to electricity.
+ Brand visibility from all sides thanks to 360° printing.
+ Optional internal LED lighting ensures brand visibility after dark.

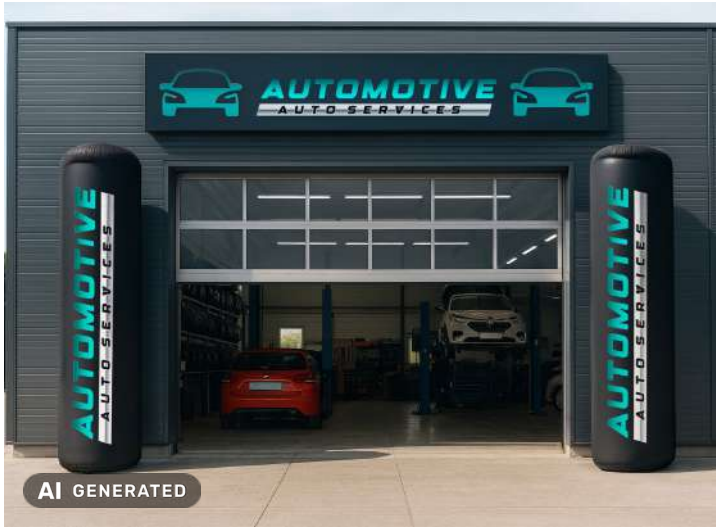
Additional options:
+ internal LED lighting
+ wooden bases
+ sand weights

AirFlow advertising totem

Fan-inflated totem

Scan the code and learn more

Height [m]	2	2,5	3	4	5	6



+ Optional internal LED lighting ensures full visibility during evening and night-time events.
+ The structure can be equipped with a wooden base for increased stability.
+ Thanks to its fan design, the pole unfolds instantly after connecting the blower.

Additional options:
+ internal LED lighting
+ wooden bases
+ replaceable printed banners
+ sand weights

Scan the code and learn more

AirFlow product replica

Fan-inflated replica

Height [m]	2	2,5	3	4	5	6

+ Any shape can be reproduced, from logos to realistic product replicas.
+ High-quality materials resistant to weather conditions.
+ Brand visibility from all sides thanks to 360° printing.

Additional options:
+ internal LED lighting
+ wooden bases
+ sand weights

Airflow AirDancer

Fan-inflated AirDancer

Scan the code and learn more

Height [m]	4	5

+ An eye-catching, moving advertisement that attracts attention and glances.
+ The easy and quick unfolding system ensures that the structure is ready in seconds.
+ The 360° print allows the brand to be displayed regardless of the observer's location.

Additional options:

+ replaceable sleeve with print
+ hair
+ ribbons
