More than advertising

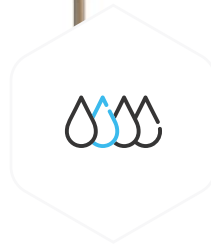

Discover NEOtent™

Durability

Experience

Print

Proudly developed by Litex Promo

NEOtent™ advertising solutions allow you to arrange a unique place for your company during outdoor events. It gives appropriate character to hold organized meetings and events. It is not only a shelter, but also the perfect medium to showcase your brand's identity.

We invite you to get acquainted.

We are a Polish manufacturer of advertising media and HoReCa elements and furniture. We have thousands of implementations on our hand, completed for the world's largest brands.

The experience gained due to this has allowed us to create an amazing solution, which is NEOtent™.

Our uniqueness lies in the fact that we deal with every stage of production: from design, through production, to conservation.

Durability

NEOtent™ exceeds the solutions of other manufacturers in terms of quality, comfort and service. The technology applied in Neotent allows us to achieve extraordinary durability of this product..

Experience

We offer not only high quality tents, but also have specialist knowledge and experience. We have been present on the market for over 30 years.

Print

We provide clients with ease of design and personalization thanks to our high-quality printing technology. We have a rich machine base that allows us to offer a professional print quality by using digital printing, large format flat printing and manual screen printing.

Fast order-to-delivery time

We make every effort to ensure that the delivery time does not exceed the forecasted date. We know that the event industry can be unpredictable, which is why our clients can count on support during the whole process of order fulfillment.

There are no two identical events. With this in mind, we have created solutions tailored to different clients and industries. We have also taken into account the weather conditions and limited possibilities that can be encountered during the organization.

NEOtent™ is two amazing solutions, with many possible configurations.

NEOtent™ Standard has been created for economic users who value comfort, quality and product availability, as well as for spare parts.

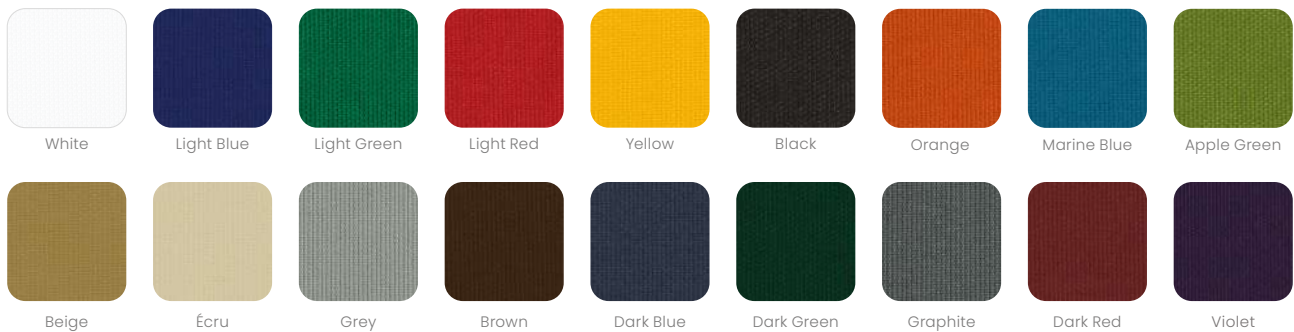

NEOtent™ Plus is a version for very demanding clients. It is characterized by a reinforced frame and the use of elements covered even by a lifetime manufacturer's warranty.

Regardless of which solution you consider the best for your company, by choosing **NEOtent™**, you have a guarantee of a good investment and a great way to present your brand.

STANDARD

A rich basic colours palette of the sheathing

We use a water repellent fabric with a weight of 235 g/m².

Wall types

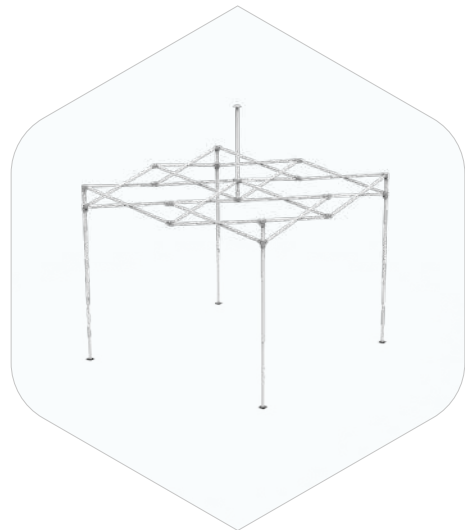

Hexagon profiles

Thanks to the profiles made of durable aluminum, the structure of the tent is more stable than in the case of typical rectangular profiles. The hexagonal shape ensures proper fit and form of the tent's construction.

Cross-frame construction

The modern frame has been created with the thought of strength and ease of use. Precisely made elements of the structure allow swift operating and ensure durability and safety.

Sizes

	2 x 2	2 x 3	2 x 4	2,5 x 2,5	3 x 3	3 x 4,5	3 x 6	4 x 4
