Why Litex Promo?

Experience and reputation

Our reputation in the industry is the best quality assurance of our services and products. Both small and medium-sized companies as well as global corporations work with us because they trust our experience and skills. We have been on the market for 30 years. During this time, we have managed to gain not only the trust of thousands of customers, but also tremendous experience that allows us to create innovative solutions. We are not satisfied with mediocrity.

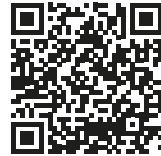

Print quality

We can say, in all confidence, that printing is our specialty. The extensiveness of our technical facilities allows us to offer customers various printing techniques, all tailored to their needs and the specificity of the project they want to implement. We have comprehensive competencies in digital printing, large format flat screen printing, rotary printing as well as manual screen printing. Our many years of experience in this industry assure you that the print on your product will be of the highest quality.

Corporate Social Responsibility

We have taken action to reduce our impact on the natural environment. Recently, we have introduced innovative recycled yarn to manufacture advertising media, we also actively contribute to environmental protection. Our approach is not limited to the processing of PET bottles for rPET yarn production, but we also aim to reduce the consumption of non-renewable raw materials and eliminate harmful emissions into the atmosphere in our production plants.

Therefore, we are proud to inform that **all parts of our parasols:** aluminum frame, polyester and acrylic canopies, **can be recycled.** The information diagram illustrating the recycling method is attached to the product at the customer's request. In addition to this, the plastic waste generated during the production cycle is processed and reused again.

Promotional parasols of the „rPET” series are made of not less than 65% of all recycled materials, including: the share of recycled yarn in the canopy - 100% and recycled aluminum in the frame - 90%.

As part of our rPET product range, we can provide certificates confirming that the yarn comes from a recycling process. In addition, the labels on our products or other distinctive markings are marked with the word 'recycled'.

Advertising Parasols

sublimation printing

flat printing

Wind resistance

Material

woven fabric made of recycled yarn

Parasol Harmony has been designed to minimise the negative impact on the environment. We use less plastic and instead focus on using recycled and biodegradable materials. We have ensured that the foil in which the parasol is packed and the transport carton are also 100% eco-friendly. This is our contribution to reducing waste and protecting our planet.

Wind resistance

Material

woven fabric

woven fabric made of recycled yarn

Eco Line parasols are the perfect marketing solution for building brand visibility. The lightweight aluminium frame and a pole that can be divided into two parts not only save space and storage, but also contribute to much more economical transport. The parasol canopy can be fully printed and our technical facilities and many years of experience in this sector give you the assurance that the print will be of the highest quality.

3 m / 8, 3,5 m / 8, 4 m / 8

Material

woven fabric

woven fabric made of recycled yarn

Easy Up is a line of parasols with a convenient and intuitive opening system. Just push the handle up and secure the canopy. This simple method and wide range of available sizes make the parasols in this line perfect for gardens, hotel patios as well as beer gardens. The parasol's canopy, offered in a round or square shape, makes it the ideal medium to promote your brand.

Material

woven fabric

woven fabric made of recycled yarn

Synonymous with comfort and functionality. Easy up Plus combines a solid construction in a fashionable anthracite colour with practical solutions that meet the needs of modern catering. As standard, the canopy is equipped with an additional visor, which improves air flow, ensures thermal comfort on hot days and increases the stability of the structure in strong winds. Its elegant form makes the parasol a perfect match for restaurant gardens and hotel swimming pool areas, and it also serves as an excellent advertising medium during outdoor events.

Scan the code and learn more

Classic

Size	3 x 3 m	3,5 x 3,5 m	4 x 4 m	4 m / 8

+ Comfortable operation thanks to the classic string mechanism.

+ Pole structure optimized for open-close manual operation by a string.

+ Classic model of a sunshade parasol for universal use.

Printing techniques

sublimation printing

flat printing

thermal transfer printing

UV printing

Wind resistance

Material

woven fabric

woven fabric made of recycled yarn

Classic elegance. This is an incredibly versatile parasol with a wide range of uses. It has a simple and reliable corded opening system. The canopy is finished with a valve as standard, which allows air to circulate and increases the parasol's stability in the wind. The extraordinary functionality and versatility of this parasol make it one of the most frequently purchased models.

Scan the code and learn more

Telescopic

Size	3 x 3 m	3,5 x 3,5 m	4 x 4 m

+ The telescopic mechanism used, improves the everyday use of the parasol.

+ The structure of the parasol canopy remains strong, even in large sizes.

+ Easy to open and close the canopy with its large surface.

Material

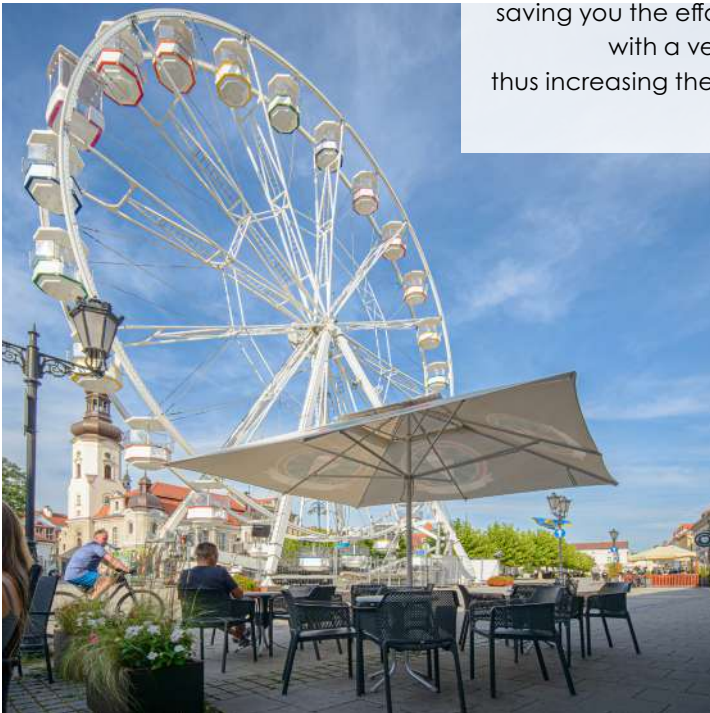

woven fabric

woven fabric made of recycled yarn

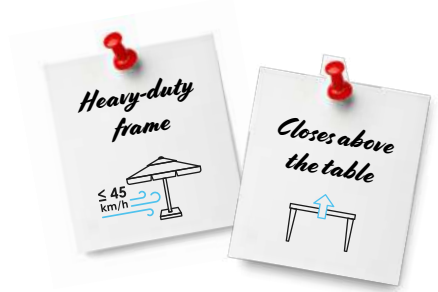

Comfort and convenience. Parasols from the Telescopic line are a solution that will work perfectly in restaurant gardens and cafes. Thanks to the telescopic construction, the parasol canopy automatically rises during closing and freely closes above the level of tables and chairs, saving you the effort of moving them. The parasol canopy is normally finished with a vent that allows the air to pass through the canopy, thus increasing the stability of the parasol in the wind. It's also possible to finish the canopy with a second roof.

Giants among parasols. Giant Plus line parasols guarantee eye-catching look and the possibility of shading a very large area using one parasol. It's an ideal solution for hotels and big restaurants. The reinforced, twelve-rib structure of the frame guarantees safety and stability. The practical telescopic opening system is operated with a crank. The Giant Plus parasol canopy is finished with a vent that ensures optimal air circulation.

Scan the code and learn more

Rectangular

Size	2 x 3 m	3 x 4 m

+ The original, rectangular shape of the parasol, distinguishable by a canopy with a longer side.

+ The used telescopic mechanism contributes to the improvement of its functionality.

+ A canopy with one longer side allows you to combine parasols into one roof.

Printing techniques

Stand out with modernity. Parasols with side leg Rio Plus are the perfect, eye-catching advertising medium for exclusive brands, hotels and restaurants. The lateral position of the leg allows full use of the shaded area under the canopy and does not interfere with visibility nor restrict placement of the furniture under the canopy. Parasols have an adjustable angle of the canopy, so you can better match them to the solar conditions.

Height [m]	2	2,5	3	4
------------	---	-----	---	---

- + The constant pressure design does not emit any sound and ensures comfortable presentation conditions.
- + The option of equipping the bottle with a wooden base improves stability and resistance to movement.

- + No need for constant inflation allows for brand exposure in any outdoor setting and environment.

Additional options:

- + internal LED lighting
- + wooden bases

Height [m]	2	2.5	3	4	5	6
------------	---	-----	---	---	---	---

+ With a height of up to 6 m, the brand becomes the focal point of the event, attracting attention and standing out from the background.

+ Optional internal LED lighting allows for effective, round-the-clock brand exposure.

+ Even in the event of mechanical damage to the cladding, the blower continuously maintains the shape of the structure.

Become our distributor!

Build a competitive advantage, increase your revenue and gain new customers with Litex Promo – the European leader in the production of advertising media!

Why is it worth working with us?

Timely production and delivery

Efficient logistics and optimal stock levels guarantee that orders are fulfilled without delay.

Marketing support

Ready-made photos, product cards, catalogues and sales materials available immediately.

Dedicated customer service representative

One representative is responsible for your orders, coordinates DTP processes and logistics, ensuring efficient cooperation.
